## Import & Export and Air Freight Trends – Korea

■ The impact of the air cargo market on Corona 19 is that major airlines continue to cancel and reduce Incheon routes, and thus, demand unbalance will be expected due to the shrinking of belly space. It is expecting backlog shipments in coming March accordingly.

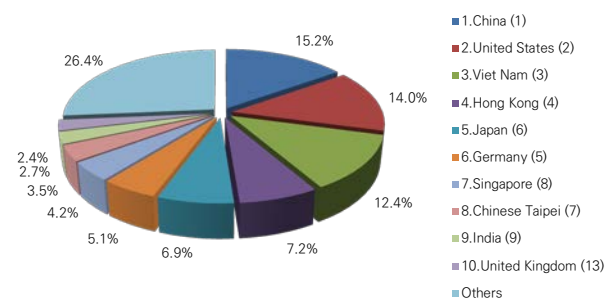

Currently, national airlines are discussing and reviewing the expansion of cargo supply, but compared to relatively free passengers, freighters are known to be slow to respond to the market because they take time to accompany the agreement and are reviewing from various angles to meet demand.

On the other hand, the shortage of cargo space supply is expected to intensify according to schedule reductions to China, irregularities to flight schedule and changing into small aircraft.

■ Top 10 countries 'CASS air cargo export weight by country, and the top 10 countries' exports in China, USA,

Vietnam, Hong Kong, Japan and Germany recorded 42,206 tons, accounting for 73.6% of the total. Compared to the same month of last year, overall volume declined – 3.5%.
