宇頂 WOOJUNG
The Top of the Sky

A skylark rising up to the sky high
Speaks instinct and desire within a small heart.

Wishing toward
To the wider and the higher place.

Highlight :

- Due to the new Covid19 impact many airline's schedules have changed, requiring to check the booking progress in advance.
- It is difficult to predict the air cargo market in Oct, which is a different type of peak season than in previous years and expecting that the high-price market will continue.

CEO Story - [CEO INSIGHT] September

Crisis into Opportunity!

A new rule maker in the aviation logistics industry

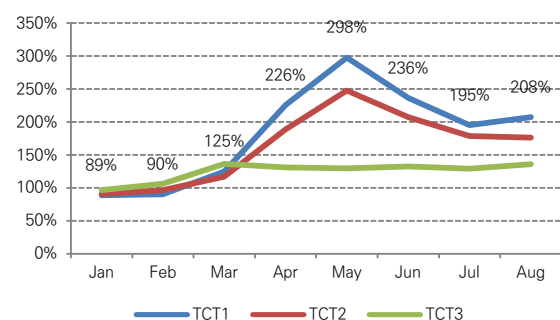

Among the larks of the writer Pi Chun-deuk, the lark remembers the green forest, blue sky, and summer barley. When he dreams, there is a phrase saying that the background is not a cage, but always a wide field. Woojung Air, a specialized air cargo consolidator, expresses its ambition to freely navigate the wider and higher sky from the

top of the sky from its birth by putting these phrases in its introduction. The wind of innovation brought by CEO Joon-Suk Yim, who wants to become a new rule maker

out of the set frame, is turning the crisis of Corona 19 into an opportunity. [Business Magazine : CEO iNSIGHT]

According to CASS statistics, the rate of change in air cargo prices from Korea in 2020 compared to the previous year, except for TACT 3, rose sharply after Mar, peaking in May and falling from Jun, but TACT1 rose again in Aug, and we are maintaining a higher price than the previous years. [CASS]

Reasons to get the influenza vaccine this year!

What is Influenza?

It is an infectious disease caused by the influenza virus. It is prevalent every winter, causing high fever and respiratory symptoms such as coughing.

When does immunity begin and last?

It takes about 2 weeks to form antibodies after inoculation. The effect lasts about 6 months.

When should we get an injection?

It is recommended to do it in Oct–Nov. However, in the case of children who need two doses of vaccination, the vaccination starts from early Sep and the second vaccination is completed before the influenza epidemic.
