DIGITAL AIR CARGO ALL-IN-ONE SERVICE PLATFORM

iNOMAD

FUTURE SOLUTION future of Digital Air Cargo

Highlight :

iNOMAD, a new platform service for Digital Air Cargo, is an optimal all-in-one solution through the convergence of information and communication technology (ICT) with the optimal combination of air logistics and console maximization know-how to provide stable space and competitive rates to customers. It is coming soon to launch a customer service solution that meets the requirements of a new era.

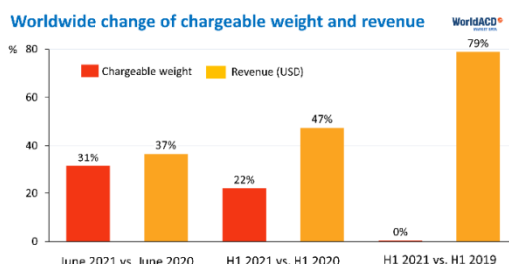

Global and Korean Air Cargo Trends

Global air cargo volumes return to 2019 levels in first half

Cargo volumes were back at 2019 levels in the first half of the year while revenues remained far above the levels of the last two years. The latest statistics from analyst WorldACD show that cargo volumes – in chargeable weight – in the first half of the year were at the same level as in the pre-covid year of 2019. Meanwhile, volumes compared with the same period last year were up by 22%.

Looking at monthly performance, cargo volumes in June were up by 31% year on year.

In terms of air cargo revenues, the first half registered a 79% improvement on 2019 levels for the same period, while there was a 47% increase on last year.

[WorldACD]

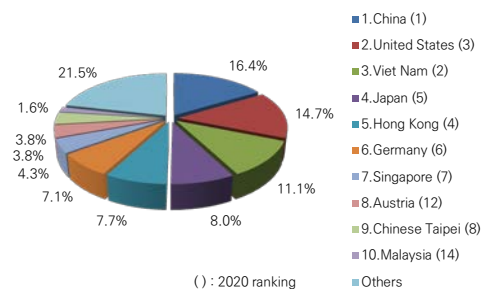

Korean export air cargo status

The air export volume of domestic forwarders in the first half of this year was found to have recovered to the pre-COVID level.

According to the performance data for each airport in the first half of 2021 provided by KC-Net, air export volume increased by 24.2% compared to the previous year and 18.1% compared to 2019 before the outbreak of Corona.

In Jun, Korea's air cargo volume by CASS country exported the most to China, following the United States, Vietnam, and Japan.

The total cargo volume of Top 10 accounted for 78.5% and increased 28.1% compared to the previous year. [CASS]

AUG “빙동” THINK Southeast Asia

● BR / CI to CGK Connection schedule in Aug

Same as last month, BR / CI connecting flights to CGK are not allowed due to a decrease in flights and crew quarantine inside the airline caused by the spread of the local corona. Please refer.

● SG new operation

SG (Spicejet) is operating flights to MAA & DEL.

Route	Flt No.	Dep	Arr	Day
ICN-MAA	SG7354	21:50	06:20+1	3
ICN-DEL	SG7356	21:50	06:10+1	7

● TG to/beyond BKK flight schedule in Aug

Please refer to the following schedule.

Route	Flt No	Dep	Arr	Day
ICN-BKK	TG657	10:20	14:10	4,5
	TG655	21:20	01:10+1	7
BKK-MAA	TG359	22:10	00:01+1	1,4
BKK-DEL	TG315	22:00	23:00	1,3,4
BKK-BOM	TG317	18:55	21:55	1

※ Only TG657 (D4,5) ex ICN is possible to connect beyond BKK.

● TW to SGN additional cancellation

TW1121 flight to SGN, which had been cancelled until 8/15, has been extended with additional non-operation until further notice due to the worsening situation due to the local corona in Vietnam.

✓ Currently, it is at the local lockdown level due to the impact of the Vietnam Corona virus, and please proceed after checking whether handling is possible with the local CNEE in Vietnam.

● D7 to KUL lithium battery concerned

It is possible to send with batteries including ELI/ELM, which was previously impossible.

✓ When transporting batteries by D7, you need to submit MSDS / final packing photos / PL or CI documents related to batteries.

Nobody can stand the heat. heat disease ‘sunstroke and heat stroke’

When the body temperature rises due to prolonged exposure to a high temperature environment in hot summer, a series of processes take place to regulate body temperature. This increases the amount of blood sent to the ends of the body to dissipate heat and sweat to lower body temperature. In this process, we lose a lot of water and salt than we think, and if this condition continues, severe thirst, lethargy, dizziness, and lead to heat illness.

If heat stroke is suspected !

1. Call 911 as soon as possible for an ambulance
2. Stop all activities and quickly move the patient to a cool place.
3. Loosen clothing and, if consciousness is reduced, remove as much clothing as possible.
4. Before the ambulance arrives, use ice or a wet towel to lower the body temperature.
5. Do not give anything, including medications, to an unconscious patient.

★ A mysterious dictionary of import cargo that is useful to know ★

Q. It's labeled, why is it on hold ?

A. When entering Korea, even if there is no house number or the place where the house number is written is unclear, the Korean Customs considers it as missing a label.

Example 1) No house number

Example 2) The house number is located in the AGENT column, so it is not recognized as a house

Q. Processing methods and procedures ?

A. The bonded company must obtain an application and approval for modifying label and release of the hold at the holding warehouse. Relevant documents require MAWB, HAWB, PL, CI and a release fee.

★ For more information, please contact the Import Department of Woojung Air. ★

Others

- **Status of fuel & other surcharges by carrier**

- **KE/OZ/Etc** : FSC to be imposed from 16Aug'21 [long haul : KRW300/Kg, medium range : KRW280/kg, short haul : KRW270/kg]

- **Other airline & forwarder's information**

- **QR** : Qatar Airways (QR) announced that it has included the United States in its online booking service through Webcargo. Accordingly, from July 19th, forwarders in the United States can use all online services such as real-time price check, supply status, and real-time reservation through the Web Cargo platform. Service areas include Atlanta, Bosconn, Chicago, Dallas, Houston, Los Angeles, Miami, New York, Philadelphia, San Francisco, Seattle, and Washington DC. QR official said, "Following the successful settlement of the web cargo service in Europe, we are able to start the service in the United States"
-
- **SG** : India LCC Spice Jet (SG) will operate cargo plane once a week on Incheon routes from Delhi and Chennai from July, respectively. The input

aircraft is a B737, and Incheon–Chennai will operate on Saturday and Incheon–Delhi on Sunday.

- **UBN** : Mongolia's Ulaanbaatar New Airport (UBN) started operating in earnest on the 4th of last month. The operation of the old airport (ULN) was quite limited due to geographical constraints and weather conditions, so to solve this problem, a new airport was built 50km away from the center of Ulaanbaatar. [CargoNews]
- **LH** : Please be informed that effective 09 August 2021, td.Flash labels (service identification label) are no longer required. Identification of td.Flash packages are handled by digital control mechanisms, such as scanning/shipment steering systems and other internal processes. These digital processes are much more reliable than the manually triggered service identification label.
